# WHAT ARE TEACHERS SAYING?

"I love these signs! They look great on my wall and serve a **great function to help students see expectations** (and help me remember to \*set\* those expectations explicitly). I also love having the rubrics on the wall so I can ask students to **rate their understanding** as part of an exit ticket."

"GREAT resource! Very helpful in organizing my classroom! I've used it in different settings, and it has **great options for middle school, high school, and special education!**"
