

MATH WORD WALL

for 5th – algebra 1

5th, 6th, 7th, 8th, and algebra 1 vocabulary words

what's included?

- 240 terms with definitions and visual representations in English
- Spanish translation of definitions and visual representations
- minimal prep, print-and-go
- flexible formatting to serve students' needs

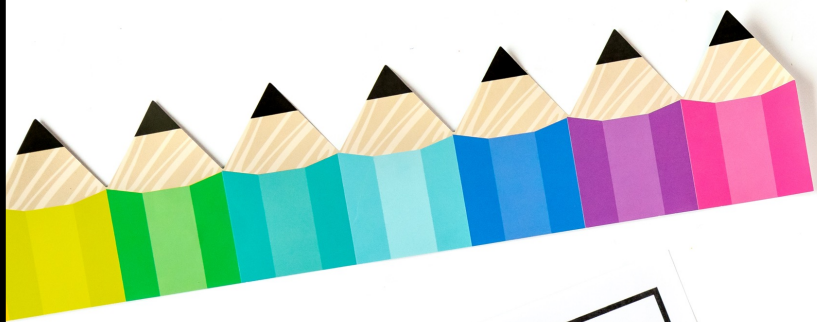

MATH WORD WALL

for 5th – algebra 1

5th, 6th, 7th, 8th, and algebra 1 vocabulary words

what are the benefits of a word wall?

- introduces new terms and review old terms
- builds a common vocabulary within a classroom
- supports English language learners
- adds color and purpose to any classroom wall

function

la función

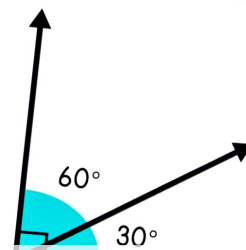

a relationship in which
each input (x) has
exactly one output (y)

A MANEUVERING THE MIDDLE® RESOURCE

**complementary
angles**

**los ángulos
complementarios**

two angles that
have a **sum of 90°**

MATH WORD WALL

for 5th – algebra 1

VOCABULARY TERMS INCLUDED (A – M)

absolute value	complement	direct variation	hypotenuse
acute angle	complementary angles	distributive property	identity property
acute triangle	composite figure	dividend	image
additive relationship	composite number	divisor	improper fraction
adjacent angles	compound interest	domain	income
alternate exterior angles	cone	dot plot	income tax
alternate interior angles	congruent	electronic payments	independent events
area	constant	equilateral triangle	independent quantity
arithmetic sequence	constant of proportionality	equivalent	inequality
asset	coordinate plane	equivalent ratio	infinitely many solutions
associative property	correlation coefficient	expenses	integer
asymptote	corresponding angles	experimental probability	interest
axis of symmetry	credit	exponent	interquartile range
balanced budget	credit card	expression	inverse function
bar graph	cube	exterior angle	inverse property
base (geometry)	cube root	financial record	irrational number
base (expressions)	cylinder	fixed expense	isosceles triangle
binomial	debit card	frequency tables	lateral surface area
bivariate data	degree of polynomials	function	legs of a triangle
box plot	denominator	geometric sequence	less than
budget	dependent events	grant	less than or equal to
categorical data	dependent quantity	greater than	liability
check	deposit	greater than or equal to	like terms
circle graph	diameter	gross income	linear
circumference	difference	height of a cylinder	linear association
coefficient	difference of squares	height of a prism	literal equation
commutative property	dilation	histogram	maximum/minimum

VOCABULARY TERMS INCLUDED (M – Z)

mean	perpendicular lines	relative frequency	transversal
mean absolute deviation	place value	remote interior angles	trapezoid
median	polygon	rhombus	triangle
mode	polynomial	right angle	triangular prism
monomial	population	right triangle	triangular pyramid
multiplicative relationship	powers of ten	rotation	trinomial
natural number	pre-image	sales tax	two-way table
net	prime	sample	unit cube
net income	prime factorization	sample space	unit fraction
net worth	prism	scale factor	unit rate
no solution	probability	scalene triangle	unit square
non-linear	product	scatter plot	variable
non-proportional	property tax	scholarship	variable expense
numerator	proportion	scientific notation	vertex
numerical data	proportional	shape	vertical angles
obtuse angle	pyramid	similar figures	volume
obtuse triangle	Pythagorean Theorem	simple interest	whole number
one-to-one	quadrants	simplify	withdrawal
opposite	quadrilateral	slope	work-study
order of operations	quotient	slope-intercept form	x-axis
ordered pair	radical expression	solution of a system	x-coordinate
orientation of a figure	radius	sphere	x-intercept
origin	range (data)	spread	y-axis
outlier	range (graphing)	square	y-coordinate
parallel lines	rate	square root	y-intercept
parallelogram	rate of change	stem and leaf plot	zero pair
payroll tax	ratio	student loan	zeros
percent	ratio table	sum	
percent decrease	rational number	supplementary angles	
percent error	rebate	system of equations	
percent increase	reciprocal	system of inequalities	
percent proportion	rectangle	theoretical probability	
perfect square	rectangular prism	total surface area	
perfect square trinomial	rectangular pyramid	transfer	
perimeter	reflection	translation
